PLAYED FINE BALL

Heavy Hitting by Bowden and Fast Fiedling by Cross- field Marks Game at Southern Town

With a team got together in twenty minutes Bowden played to a tie the best exhibition game of baseball pulled off this season, with Crossfield team at the Agricultural fair there yesterday. Thru an accident to Samis and two of the regular players backing out after the club had depended on them for the game the team was short three men. At the eleventh hour the club secured Lancaster, Keith, and Ramsey who played to better advantage the positions of the absent ones.

The terms "quitter" and "piker" can well be applied to one of the absentees. The true sporting spirit shown by Lancaster Keith and Ramsey who on short notice and at great inconvenience to themselves helped the boys out of difficulty, was greatly appreciated by the club. All three played A1 ball one score being credited to Lancaster, Ramsey got one, and Keith made two safe hits at bat.

The game was called at 7.15 and nine innings were played in an hour and a half which is exceedingly good time for amateur ball. All the boys pounded the ball but were not lucky enough to get them in the safest places or the score would have been larger in our favor than it was. Crossfield imported a pitcher and a second baseman. Ramsey at first played a good steady game throughout.

"Sunny Jim" done the twirling for our team and pitched his best game this season striking out 16 men. McDanold made two sensational one-handed catches in left field and Keith grabbed a hard drive to centre. Lancaster at short-stop accepted a difficult fly on a backward run. "Dock" behind the bat did a 60ft hurdle race over kids and baby carriages for a high foul which he gathered in amid much applause.

The first inning for both teams ended in goose eggs hung up on the score board, but in the second inning Crossfield scored one and one again in the third, from the first to the fifth Bowden retired without a score, but in the 6th Lancaster and Arnold crossed the plate and evened up the score. In the 5, 6, and 7th Crossfield was blanked, but the eight saw two more scores to their credit. Runs in the eight by Ramsey and Buchanan tied the score and the 9th was blank for Crossfield. In Bowdens half of the ninth Lancaster scored on a blocked ball but was

called out by the umpire. This would have given Bowden the winning run and the manager Mr. Thomas of the Crossfield team admitted after the finish that the umpire was wrong in his decision. The teams lined up as follows:

BOWDEN	CROSSFIELD
Buchanan	catcher
Cornish	pitcher
Ramsey	1st base
Rollans	2nd base
Thomas	s stop
McKim	3rd base
Arnold	r field
Keith	c field
McDanold	l field
	McLaren
	Osler
	Urquhart
	McNeill
	Lancaster
	Wegener
	Urquhart
	Brown
	McBean

Score by Innings

Bowden 0 0 0 0 0 2 0 2 0—4
Crossfield 0 2 0 0 0 0 2 0—4

LOCAL NEWS

Rev West of Olds was in town on Tuesday.

Geo Leaming of Innisfail spent Friday night in Bowden.

Arthur Boyd returned from a business trip to Calgary.

Chas Hayes returned from Calgary on Tuesday.

J Prouse made a trip to Calgary on Tuesday evening.

Geo Brewster is breaking a couple of colts this week.

Chris Sorenson made a trip to Ponoka on Tuesday morning.

Jas Brewster made a trip to Red Deer on Tuesday.

R Begg, the genial stockman is shipping a car load of hogs to Calgary this week.

Butler's store was again broken into on Monday night, so far, nothing has been missed.

Robt Mobbs of Spokane stopped in town Monday enroute to visit his brother in the Raven district.

Herb Prouse purchased a half section of land north of the 2nd lake, from Mr Cruthers.

Messrs Buch and Richie passed thru here on Wednesday in an automobile.

Miss A M Dempster, trained nurse, who has been visiting at Mr T Lancasters, left Tuesday evening for Lacombe.

Mr Van Buren of Washington who purchased the Randleman place has returned to Bowden from a months visit at home.

The Little Red Deer Foot ball will play the return game with the Bowden boys on Saturday next weather permissible.

J Lawrence left on Saturday for Sacramento, where he has a brother living. He intends taking in the big fight enroute.

Mr Willerton, of New Westminster, B. C. former old timer here, is back looking over the district with a view of resettling.

We are sorry to report the serious illness of Thompson Arnold who was taken to the hospital on Sunday evening suffering from a nervous breakdown, we all join in wishing him a speedy recovery.

Mr and Mrs Haynes and daughter who have been visiting at Mrs W W Rutledge left for a visit to friends on the coast.

Fred Gilliland brought in a sample of fall wheat this week measuring 32 inches in length. The samples were sent to the Crown Lumber Co's office at Calgary.

A telegram was received on Tuesday by John Campbell which stated that his father had been injured in an accident. No particulars as to the seriousness or nature was given.

OLDS WON THE GAME

Placed Hits in Last Innings And Run in 7 Runs--Bow- den Used a New Pitcher

Following our victory over Innisfail last week, our team met defeat at the hands of our friends, the enemy. Olds on our own grounds. For six innings the red and white held down the visitors to four runs scattered thru as many innings, but in the 7th we got ours. In this inning the hits were placed right where they were needed and when the visitors were retired the score stood 11 to 1 against us.

McBroom made his debut in the pitchers box and played a fairly good game but lacked control, with more practice he should make good. Several runs were scored against him on wild ones back of the plate. Cunningham did the throwing for Olds and had our boys at his mercy all the time. Our boys seem to have lost their batting eye that they had in the game with Innisfail. The game only went seven innings and good supports was given the battery throughout.

The editor was in Winnipeg on Monday and is expected home on Saturday.

Olds races have been postponed until July 12th on account of rainy weather.

Word was received the first of the week that Sheriff Emmitt F. Haskins, cousin to Fred L. Harrie, was shot and instantly killed while attempting to arrest Silas F. Phelps a criminal of long record. After the tragedy the murderer made good his escape in the woods, a reward of \$500 was offered for his capture and after four days scouring the woods he was discovered in an utterly exhausted condition and placed under arrest to await trial. Mr Haskins lived at Charlemagne and was sheriff of Franklin Mass. for the last thirteen years.

Betchton News

A very pleasant afternoon was spent on Sunday at the R Hawkins home.

Jas Hawkins had the misfortune to injure his side while out driving last Sunday.

Emma Gray was returned to the Calgary hospital on Saturday last.

Mrs Allen Harper has been ill for the past few days.

The rain which arrived on Saturday was a great help to the gardens and grain.

Chas Adams was out driving on Friday evening.

Agnes and Glen Sherwood intend going to Innisfail next week to try for their examinations.

Somebody Lied

It has reached my ears that Miss Anna Hayward has been telling around town that she was told by Minot Stetson that while talking to Mr Buchanan in the bank last week, I told him to go to h—l. I am prepared to prove that either Miss Hayward or Mr Stetson has maliciously lied. I do not believe in using the news paper weapon, for personal grievances, but when ones reputation is endangered, I say use the first weapon you can get. (Signed) M's Harris

Doomed to Suffering

RESCUED BY "FRUIT-A-TIVES"

CHARLES BARRETT, Esq.

Harbor au Bouche, March 24, 1909.
"I suffered terribly from Biliousness and Dyspepsia for fifteen years, was treated by physicians and took many remedies but got no relief. Then I took 'Fruit-a-tives', and this medicine completely cured me when everything else failed. To all sufferers from Indigestion, Biliousness and Constipation, I strongly advise them to try this fruit medicine." Charles Barrett.
50c a box, 6 for \$2.50—or trial box, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

Winding Up His Affairs

"Look here, Ben, what did you shoot at me for? I ain't got no quarrel with you."
"You had a feud with Jim Wombat, didn't ye?"
"I did; but Jim's dead."
"I'm his executor."—Washington Herald.

\$100—REWARD—\$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O.
Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

If a burn be immediately covered with butter the skin will not blister.

Ask for Minard's and take no other.

Relieved by Murine Eye Remedy. Try Murine for your Eye Troubles. You will like Murine. It Soothes. 56c at Your Druggists. Write for Eye Books Free. Murine Eye Remedy Co., Toronto.

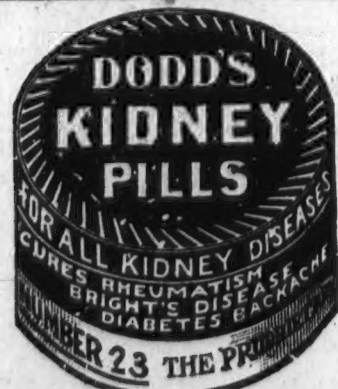

"My husband," said the peo woman, "is today beneath the cold, cold waves." Deeply touched, the benevolent gentlemen paid 5c for an ornament he didn't want. "Yes," she continued, when the money was safely tucked into her satchel, "he is stoking on a new submarine torpedo boat."

Pills of Attested Value.—Pamel's Vegetable Pills are the result of careful study of the properties of certain roots and herbs, and the action of such as sedatives and laxatives on the digestive apparatus. The success the compounders have met with attests the value of their work. These pills have been recognized for many years as the best cleansers of the system that can be got. Their excellence was recognized from the first and they grow more popular every day.

A patent has been granted for an attachment to rocking chairs to operate a fan to cool the occupant.

Minard's Liniment used by Physicians

Tailor (to Tommy's mother, who is ordering her boy's suit)—"Do you wish the shoulders padded?"
Tommy—"No, ma, have them pad the seat of the pants!"

W. N. U., No. 798.

The Perverted Chronometer

Percy Von Stay—Isn't that the alarm clock I hear?
May Budd—It is.
"Who in your family rises at this late hour?"
"Pop, if I haven't gone to bed."

Legal Advisor.—"As I understand you, your family is in such reduced circumstances that nothing is left of your ancestral estate now but a ruined chateau."

Count Boyton de Bakkovisnek—"Zat ees gone, too, sare. I myself am ze sole ruin."

"What is the baby crying for, my child?"

"I dunno; e's alwys crying. I never came acrawst anyone wot looks upon the dark side of things as 'e does."—Punch.

Appreciated Distraction

Washington Star—So you think the automobile has made life much pleasanter?

"It has for me," answered the comfortable citizen. "I drive a fast horse and my son rides a bicycle. The automobile has taken the minds of the police off both of us."

D'Aubist—"Do you think my battle picture expresses, as I have meant it to, all the poignant horrors of war?"

Kittick—"Oh, yes; it's the awfulest thing I ever saw."

WHAT NEGLECT DID FOR HIM

JAS. E. BRANT SUFFERED TORMENTS FROM KIDNEY DISEASES

Then He Used Dodd's Kidney Pills and Became a Well Man—His Experience a Lesson for You.

Athabasca Landing, Alta.—That Kidney Disease, neglected in its earlier stages, leads to the most terrible suffering, if not death itself, and that the one sure cure for it in all stages is Dodd's Kidney Pills, is the experience of Mr. James E. Brant, a farmer residing near here.

Mr. Brant contracted Kidney Disease, when a young man, from a strain, and, like hosts of others, neglected it, expecting it to go away itself.

But it kept gradually growing worse, till after thirty years of increasing suffering the climax came, and he found himself so crippled that at times he could not turn in bed, and for two weeks at a time it was impossible for him to rise from a chair without putting his hands on his knees.

He could not button his clothes. He was troubled with Lumbago, Gravel and Backache, and tried medicines for each and all of them without getting relief, till good luck turned him to Dodd's Kidney Pills.

Dodd's Kidney Pills started at the cause of his troubles and cured his Kidneys. With cured Kidneys his other troubles speedily disappeared, and today he is a well man.

If you cure your Kidneys with Dodd's Kidney Pills you will never have Lumbago, Rheumatism, Heart Disease, Dropsy or Bright's Disease.

Within His Rights

Minister—Young man, you are sowing a large crop of wild oats.
Y. M.—Well, I'm planting them on my own ground.

Mother—"I wonder what makes that dog afraid of me? He always behaves as if he thought I was going to kill him."

Little Daughter—"I expect he's seen you whipping me."

SICKLY BABIES QUICKLY CURED

The sickly baby is quickly cured by Baby's Own Tablets. These Tablets are a never failing cure for the troubles arising from a disordered condition of the stomach and bowels. Being sold under a guarantee to contain no harmful drug they can be given to the youngest child with perfect safety. Mrs. Francis McMullen, St. Octave, Que., writes: "I have used Baby's Own Tablets for my baby who was constipated for four or five days at a time. I found the Tablets to be of great benefit and would recommend them to other mothers." They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The pretty young wife was reading Thomas Hardy's romance of "Far from the Madding Crowd," and had reached that part in which Gabriel Oak discovers the sheep have run over the edge of a precipice, most of them to their deaths.

"What fools sheep are!" she said.

"Yes, lamb," the husband replied abstractedly.

Then he wondered why she rushed out of the room, closing the door in an ungente manner.

Confession of a Ghoul

"You say that the deceased was a blameless man, beloved and respected. You knew him?"
"No, I got that from his tombstone."

Not To Be Fooled Twice

"Johnnie, keep still and sit down and have your picture taken. Nothing will hurt you."

"Boohoo! That's what you said when we went to the dentist's."

What She Looked to See

"I think, we shall like our new neighbors."

"That so? Have you met any of them?"
"No; but I watched their furniture being carried in yesterday, and there wasn't a phonograph or a music box in the outfit."—Detroit Free Press.

They Cleanse While They Cure.

The vegetable compounds of which Pamel's Vegetable Pills are composed, mainly dandelion and manurake, clear the stomach and intestines of deleterious matter and restore the deranged organs to healthful action. Hence they are the best remedy for indigestion available today. A trial of them will establish the truth of this assertion and do more to convince the ailing than anything that can be written of these pills.

"How pretty the bride looks with those orange blossoms!"

"Yes, she's a peach."

"They make a fine pair, don't they?"

"They do that, and she's the apple of his eye."

The female house fly lays from one hundred and twenty to one hundred and fifty eggs at once, and as these eggs mature in two weeks, her descendants number hundreds of thousands in three months. Therefore all housekeepers should commence using Wilson's Fly Pads now, and by killing the few flies you have at present, cut off the host that would come later in the season.

"The people in here, I am told," hummed the mosquito, trying to find an opening, "put up this netting to filter the atmosphere and make it more wholesome."

"O, come off!" exclaimed the other mosquito. "That's too gauzy!"

Very many persons die annually from cholera and kindred summer complaints, who might have been saved if proper remedies had been used. If attacked do not delay in getting a bottle of J. D. Kellogg's Dysentery Cordial, the medicine that never fails to effect a cure. Those who have used it say it acts promptly, and thoroughly subdues the pain and disease.

Africa has adopted the aluminum coin, nearly 32,000,000 coins of that metal have been struck from the British mint for circulation in Uganda and the Nigerian protectorates. Each coin bears the value of either 1 cent or 2 mills.

Speaking of the comet as a "celestial wanderer," when its orbit is fixed and known and its place in the heavens determined at any time, is about as correct as speaking of a "dash to the pole" when the dasher is doing well to make ten miles a day.—New York Times.

Antarctic Politeness.

Lieut. Shackleton tells an amusing story of politeness in the untrodden regions of the Antarctic. His party, he says, were always extremely good-humored and polite, and one professor in particular attained a degree of politeness unusual under such trying circumstances. "Are you busy, Mawson?" he called out one night to another member of the party who was in the tent. "I am," said Mawson. "Very busy?" said the professor. "Yes, very busy." "If you are not too busy, Mawson, I am down a crevasse." The professor was found hanging down a crevasse by his four fingers, a position which he could not have held on to for any length of time.

Useless Study.

Mr. Fond Father reproved his little son for having only 75 per cent. in arithmetic. "Mathematics, my boy," he said, "is a very useful study, and you must try to do better."
"I thought that was only useful for sailors," said the boy.

"Why for sailors?"

"Well, people on land have adding machines, don't they?"

As a Favor.

A certain London restaurant has this remarkable sentence displayed in various parts of its dining room: "Any incivility or inattention on the part of any of the employees of this establishment will be considered a favor if reported promptly to the proprietor."

Dear Soap.

New Lodger (sarcastically)—Is this all the soap there is in the room? Landlady (decidedly)—Yes, sir; all I will allow you. New Lodger—Well, I'll take two more rooms. I've got to wash my face in the morning.

The Doctor's Answers

By Dr. Lewis Baker.

The questions answered below are general in character; the symptoms or diseases are given and the answers will apply to any case of similar nature. Those wishing further advice free, may address Dr. Lewis Baker, College Bldg., College-Ellwood Sts., Dayton, Ohio, enclosing self-addressed envelope for reply. If unable to obtain any of the drugs mentioned of your regular druggist, go to some prominent large retail drug store which is sure to be well stocked.

Arthur F.—I am quite grateful for your kind words, and am glad to know you tried the prescription for stomach disorders. A good way to treat catarrh at home is: To a pint of warm water add a teaspoonful of salt, snuff this water through the nostrils morning and night until thoroughly cleansed. Blood treatment should also be taken and for this purpose try: Fld. ext. saw palmetto 1 oz., compound fluid balmwort 1 oz., fld. ext. buchu 1 oz., aromatic elixir 5 ozs. Mix, and take a teaspoonful before or after meals and at bedtime.

Alice G.—Use a teaspoonful of boric acid to a pint of warm water for sore and inflamed eyes; wash twice daily.

Sam K.—I have frequently given the following formula for such cases as yours. It is a thorough, powerful tonic and builder and perfectly harmless to the system even if used for a long time: Compound syrup of hypophosphites 5 ozs., tincture cadomene comp. 1 oz. Mix, shake well and take a teaspoonful before meals to improve the appetite and one at bedtime. This improves the blood, makes pink cheeks, red lips and greater nerve control for men, women or children.

Eugene—Yes, I know a very thorough and reliable treatment to cure dandruff, itching scalp, falling hair, etc. Druggists do not generally have it in stock, but I will give the name. It is plain yellow minyol. It costs 90 cents for a four-ounce jar.

Mrs. C. W.—If your child is addicted to bedwetting, you cannot expect it to be healthy, strong and hearty. Try the use of comp. fluid balmwort. A child of 6 should be given 10 drops on sugar or in water after meals and between meals and at bedtime. The symptoms may increase at first, but gradually a cure will ensue.

Mrs. X.—You want a good prescription to act on baby's bowels, without crying and pain; and something curative, as well as for immediate relief. This prescription can be relied upon when carefully filled: Aromatic fluid cascara 1 oz., comp. essence cardiol 1 oz., aromatic syrup rhubarb 3 ozs. Give an infant 5 to 10 drops, 3 to 4 times daily, or a half teaspoonful at night. Increase the dose according to age, or condition, sufficient to regulate the bowels.

Agnes M.—Since you received so much help from my previous prescription, I am going to give you a prescription which will increase your flesh and round out your figure, bringing the physical charm that goes with a well nourished body. This will usually make pink cheeks, red lips and buoyant health. Comp. syrup of hypophosphites 3 ozs., essence of pepsin 3 ozs., tincture cadomene compound 1 oz., and compound essence cardiol 1 oz. Mix, and take a teaspoonful before and after meals. Continue several months if necessary. After the first few weeks you should increase 1 to 3 pounds each week.

Spiked His Gun

Mr. Fling—Is thee any thing more disgusting as a gossiping woman?
Mrs. Fling—Yes, a gossiping man.

"How bent that you fellow is?"
"Natural thing. He comes of a crooked family."

Had The Facts

Teacher—On which ends of the earth are the poles?
Jimmy—North and south.
"Correct. On which side are the most people?"
"On the outside."

Canadian Made

No doubt you will agree that if quality and price are equal every Canadian should buy Canadian made goods in preference to any others.

Not only is it patriotic—it's sound common sense. The money spent for Canadian goods goes to build up Canadian industries and prosperity, and makes it easier for every Canadian to earn a good living.

On the other hand, money spent for foreign made goods goes out of the country to pay foreigners—not to benefit Canadians.

NA-DRU-CO

Toilet and Medicinal Preparations are compounded in Canada from the purest ingredients which money can buy. The National Drug and Chemical Company of Canada returns to Canadians in employees' salaries, dividends and other expense disbursements, close to One Million Dollars a year. In addition to this we spend millions every year in Canada for raw materials, tins, bottles, labels, boxes and other supplies, giving employment to hundreds of Canadian tinsmiths, glass workers, paper makers, printers, lithographers, box makers, and others.

So even if NA-DRU-CO goods were only "just as good" as those imported from other countries, you would be following a sensible and patriotic course in buying them.

As a matter of fact, though, NA-DRU-CO Toilet and Medicinal Preparations are better than those imported. Try NA-DRU-CO Talcum Powder, NA-DRU-CO Greaseless Toilet Cream, NA-DRU-CO Tasteless Cod Liver Oil Compound or any other NA-DRU-CO preparation, and see for yourself.

You risk nothing in making the test, for if the NA-DRU-CO article does not entirely satisfy you, return it and your druggist will refund your money.

RAVEN RIPPLINGS

B Herford and Herman Belt were in Raven on Saturday.

J Parsons of Innisfail and R Flemming of Red Deer were in Raven Saturday night. Mr Flemming has purchased all of Mr Gabler's cattle. Mr Gabler intends leaving Prairie Creek.

Quite a number of the young people from around Raven and Caroline met upon the Baylor Flatt to see a bucking contest on Sunday afternoon.

Mr Litt the Caroline school teacher will teach a six months term of school at Raven beginning July 6th. The Caroline school closes on June 22nd.

Miss Lulu Dial was visiting the Misses Hazel and Bernice Berry Saturday night and Sunday.

Mrs C Fekell was visiting friends around Raven the past week.

Miss Mary Adams and Miss B Berry were the guests of Mr C and Miss M Hall on Friday.

Waren Browning and sister returned to Raven again. Waren will prove up before leaving again.

W Mustard and Melvin Bancroft were staying with Wm Berry last week getting posts to fence W Mustard's homestead east of Buzz Herolds.

Mr and Mrs Jensen from No Dakota passed through Raven on Monday enroute to their home stead on the Clearwater.

Two land seekers passed thru Raven on their way to Innisfail to file on Sunday.

R Davis and Miss B Berry spent a very pleasant evening at the home of Mr and Mrs W O Berry.

Eagle Creek

We are glad to report that A Gilliland who had his arm broken a short time ago is improving as well as can be expected.

Mr and Mrs Trowel of Crossfield are visiting at the home of Mr and Mrs Woodall for a short time.

W Doherty is working for Mr Woodall these days.

Mr and Mrs Graham were visiting at Mrs Skinner on Sunday.

The Services in the Eagle Creek school was largely attended by people of this district and Bowden.

The girls of Eagle Creek are busy selecting a base ball team.

Messrs Andrew, Sinclair and George Craig, J Gilliland and H Rasmussen were visiting at Mrs Doherties on Sunday evening.

We are sorry to report that our teacher is leaving us.

W Doherty, H Rasmussen, and S Craig spent Sunday at Mr Gillilands.

Miss I Craig spent Sunday with her sister, Mrs C Payne at Bowden.

H Skianer is building a new house.

Mr Woodall is busy at his new kitchen.

The Eagle Creek girls played their first game of baseball on Friday against the boys, the score was eleven to one in favor of the girls according to the umpire's stick, he cut a piece off of each end for each inning and there was just one end of the boy's cut off and the girl's was nearly all gone.

Mrs W J Doherty is visiting her daughter in Calgary.

Mr Woodall has purchased a new separator from C Payne.

Caroline Ripplings

Rev Warning was making a few calls around Caroline last week.

Warner Browning and brother John and Miss Browning returned home from Metaline Wash last week and have settled on Warners homestead.

H A Langley has purchased a yoke of oxen from J Constable.

R L Greer was in Raven a short time ago.

Roy Devore is breaking for C J Hall.

Z A Vallier is breaking with H A Langley's oxen.

A six months term of school closed in Caroline on the 22nd.

B W Dresser spent a very pleasant evening last Sunday at the home of H A Langley.

Wm Willoughby is again turning sod on his home stead near Caroline.

R L Greer has moved to his homestead.

There is a big rush for home steads around this country these days.

J R Langley has moved onto his place.

J Turnbull was visiting at Mr Greers last week.

Mr Baldwin has been clearing land for T M Smith.

Chas Balwin has dug 60 feet into his well and has struck solid rock so cannot go any further.

The Man From Brodney's

By GEORGE BARR
M'CUTCHEON

Copyright, 1906, by Dodd, Mead & Co.

(Continued.)

"I hope you are not forgetting what I said about the American gunboats," said Britt ponderously.

"Ah," said Baillo, with a cunning smile, "our man is also a great American. He can command the gunboats."

"Our man is a great man—next to Mohammed."

too, said. We have told him that you have the great power. He shows us that he can call upon the English ships as well, for he comes last from London. He can have both, while you have only one. Besides, he says you cannot send a message in the air without the wire unless he give permission. He has a little machine that catch all the lightning in the air and hold it till he reads the message. Our man is a great man—next to Mohammed."

Britt passed his hand over his brow, staggered by these statements.

"Say, he's smoother than I thought. Most men would have been — fools enough to say that it was all poppycock about me sending wireless messages and calling out navies, but not he! And that machine for tapping the air! Say, we'd better go slow with that fellow. Shall I call him up on the phone and head off the strike?"

"Anything, Mr. Britt, to get back our servants," said Lady Deppingham, who had come up with Mrs. Browne.

When Britt reappeared after a brief stay in the telephone booth he was perspiring freely, and his face was redder, if possible, than ever before.

"He was very peremptory at first and very agreeable in the end. I said we'd come down at 4:30. He asked me to bring some cigarettes. Say, he's a strenuous chap. He wouldn't haggle for a second."

Britt and Saunders found the enemy waiting for them under the awning in front of the bank. He looked a man from the top of his head to the tips of his canvas shoes. Every line of his long body indicated power, vitality, health. Both men were surprised by the eager, sincere manner in which he greeted them.

"Glad to see you, gentlemen," he said. He was a head taller than either, coatless and hatless, a lean but brawny figure in white crash trousers. "It's very good of you to come down. If you'll come to my shack I'll mix you a real American cocktail, a mint julep, a brandy smash or anything you like in season. There's a fine mint bed up my way, just back of the bungalow. It's more precious than a ruby mine, let me tell you. And yet I'll gladly exchange 300 carats of mint, Mr. Britt, for a dozen boxes of your cigarettes. Do you know, gentlemen, I made the greatest mistake of my life in failing to bring a ton of these little white sticks out with me. I thought of Gordon gin, both kinds of vermuth, brandy, and all that sort of thing, and completely forgot the stuff of life. I happen to know that you have a million packages of them, more or less, up at the chateau. My spies told me. I dare say you know that I have spies up there all the time. Don't pay any attention to them. You're at liberty to set spies on my

trail at any time. Here we are. This is the headquarters for the Mine Owners' Association of Japat."

He led them down a flight of steps and into a long, cool looking room some distance below the level of the street.

"The Mine Owners' association, gentlemen, comprises the entire population of Japat. Here is where I receive my clients. Here is where they receive their daily loaf, if you will pardon the simile. I sit in the chairs; they squat on the rugs. We talk about rubies and sapphires as if they were peanuts. Occasionally we talk about our neighbors. Shall I make three mint juleps? Here, Selim! The ice, the mint and the straws—and the bottles. Sit down, gentlemen. This is the American bar that Baedeker tells you about—the one you've searched all over Europe for, I dare say."

"Reminds me of home, just a little bit," said Britt as the tall glasses were set before them. The Englishman was still clothed in reticence. "They shan't catch me napping," was the sober reflection of Thomas Saunders.

The enemy planted the mint in its bed of chipped ice. "The sagacity that Taswell Skaggs displayed in erecting an ice plant and cold storage house here is equaled only by John Wyckholme's foresightedness in maintaining a contemporaneous mint bed. I imagine that you, gentlemen, are hoping to prove the old codgers insane. Between the three of us, and man to man, how can you have the heart to propose anything so unkind when we look, as we now do, upon the result of their extreme soundness of mind? Here's how!"

Selim passed the straws, and the three men took a long and simultaneous "pull" at the refreshing julep. Mr. Saunders felt something melt as he drew the subsequent long and satisfying breath. It was the outer rim of his cautious reserve.

"I think we'll take you up on that proposition to trade mint for cigarettes," said Mr. Britt. "Mr. Browne, my client, for one, will sanction the deal. How about your client, Saunders?"

"I can't say as to Lady Deppingham, but I'm quite sure his lordship will make no objection."

"Then we'll consider the deal closed. I'll send one of my boys over tomorrow with a bunch of mint. Telephone up to the bungalow when you need more. By the way," dropping into a curiously reflective air, "may I ask why Lady Deppingham is permitted to ride a horse through the unfrequented and perilous parts of the island?" The question was directed to her solicitor.

"Perilous? What do you mean?"

"Just this, Mr. Saunders," said the enemy, leaning forward earnestly. "I'm not responsible for the acts of these islanders. There are men among them who would not hesitate to dispose of one or both of the heirs if they could do it without danger to their interests. What could be more simple, Mr. Saunders, than the death of Lady Deppingham if her horse should stumble and precipitate her to the bottom of one of those deep ravines? She wouldn't be alive to tell how it really happened."

"My word!" was all that Saunders could say, forgetting his julep in contemplation of the catastrophe.

"He's right," said Britt promptly. "I'll keep my own client on the straight and public path. He's liable to tip over too."

"Deuce take your Browne," said Saunders, with mild asperity. "He never rides alone."

"I've noticed that," said the enemy coolly. "He's usually with Lady Deppingham. It's lucky that Japat is free from go-sips, gentlemen."

"Oh, I say," said Saunders, "none of that talk, you know."

"There's another thing I want to speak of," said the enemy, arising to prepare the second round of juleps. "I hear that your clients and their partners for life are in the habit of gambling like fury up there."

"Gambling?" said Britt. "What rot!"

"The servants say that they play bridge every night for vast piles of rubies and turn the wheel daily for sapphires uncountable. Oh, I get it straight."

"Why, man, it's all a joke. They use gun wads and simply play that they are rubies."

"My word," said Saunders, "there isn't a ruby or sapphire in the party."

"That's all right," said the enemy, standing before them with a bunch of mint in one hand and the bowl of ice in the other. "Every man in Japat thinks that your people are gambling with jewels that belong to the corporation. They think there's something crooked, d'ye see? My advice to you is, Stop that sort of joking."

"By Jove," said Saunders, taking a straw and at the same time staring in open mouthed wonder at the tall host, "you appall me! It's most extraordinary."

"This is all offered in a kindly spirit, you understand," said the magnanimous enemy. "We might as well live comfortably as to die unseasonably here. Another little suggestion, Mr. Saunders. Please tell Lord Deppingham that if he persists in snooping about the ravines in search of rubies

he'll get an unmanageable bullet in

The enemy plotted them sturdily through the town.

the back of his head some day soon. He has no right to a single ruby, even if he should see one and know what it was. Just tell him that, please, Mr. Saunders."

"I shall, confound him," exploded Saunders, smiting the table mightily. "He's too uppish anyhow. He needs taking down."

"Ab, Selim," interrupted the enemy as the native boy entered, "no mail, eh?"

"No, excellency, the ship is not due to arrive for two weeks."

"Ah, but, Selim, you forget that I am expecting a letter from Von Blitz's wives. They promised to let me know how soon he is able to resume work at the mines."

"I hear you polished him off neatly," said Britt, with a grin.

"Just the rough edges, Mr. Britt. He is now a gem of purest ray serene. By the way, I hope you'll not take my mild suggestions amiss."

"There's nothing I object to except your power to call strikes among our servants. That seems to me to be rather high handed," said Britt good naturedly.

"No doubt you're right," agreed the other, "but you must remember that I needed the cigarettes."

"My word!" muttered Saunders admiringly.

"Look here, old man," said Britt, his cheeks glowing: "it's mighty good of you to take this trouble for—"

"Don't mention it. I'd only ask in return that we three be a little more sociable hereafter. We're not here to cut each other's throat, you know, and we've got a deadly half year ahead of us. What say?"

For answer the two lawyers arose and shook hands with the excellent enemy. When they started for the chateau at 7 o'clock, each with six mint juleps about his person, they were too mellow for analysis. The enemy, who had drunk but little, took an arm of each and piloted them sturdily through the town.

(To be Continued.)

The Life-Saving Service.

The mission of the life-saving service of Canada is to save human life and to provide prompt aid, when possible, to shipwrecked and distressed vessels. For this purpose, there are at present 34 life-saving stations, located by provinces as follows: New Brunswick 3, Nova Scotia 13, Prince Edward Island 3, British Columbia 4, and on the Great Lakes of Ontario 11. Each life-saving station has a lifeboat, manned by a crew of seven men, including the coxswain, who commands. The coxswain is appointed by the Department of Marine and Fisheries, and is in charge of the station. His duties are to take care of the station, to select the crew, and to drill them in rough water as well as smooth, and instruct them in treating those apparently drowned.

The usual allowance to a coxswain is \$75 a year, with \$2 for each drill. Fourteen drills, of five hours each, are conducted during a season. The crew are paid \$2 each per drill, and extra when engaged in service in a wreck.

Many stations have been recently equipped with new lifeboats, which range in cost from \$225 to \$775 each. The life-saving service has many heroic rescues to its credit, but, fortunately, the latest report, that for the year 1908-9, shows that "no serious casualties involving danger to life have taken place."

Skeleton of a Giant.

An interesting archaeological discovery was made a few days ago at Ballinahalla, near Moycullen, Ireland. Some workmen, in the employment of Mrs. James Lardner, came upon a complete skeleton, which measured 5 feet 5 1/2 inches, and subsequently unearthed a sword, on which appeared in Gaelic the following: "Donach O'Keefe, A.D. 1231." Mr. Lardner had the relics removed to his house, and communicated the discovery to the Galway Archaeological Society.

CONSCIENCE MONEY.

Reporter Has a Chat With a British Treasury Official.

"Yes," said a Treasury official, with whom the writer recently had a conversation, "we usually receive something like \$50,000 a year on account of the trouble given by guilty consciences. It comes in all sorts of ways. I have known a single sovereign, wrapped up in a piece of paper, to be dropped into our letter box, with an added pencilled sentence that it was for conscience-money! Then, again, we often get sums by registered letter, with similar statements attached. I have opened packets containing as much as \$500."

"What was your queerest experience in that kind of receipt?" I inquired.

"We got a tin box, and heavy it was, by post one morning," said the clerk. "When we opened it we found a short note saying that 'X. X. X.' wished to make amends for his deceit in returning his statement of income, and adding that we should find the amount due in sovereigns in the box. So we unpacked the small parcels there, and took from each the gold coins they enclosed. The total amounted to \$1,800, which you will agree was a very good haul for one morning's work in this way!"

"You don't get such strokes of luck every day?" I asked.

"Oh, no; they come very irregularly. Sometimes a whole week elapses without our receiving one, but seldom more than that. And it is curious that most people wish to have some acknowledgment of the receipt of their conscience-money in the daily paper, which is why you so often see in the press a paragraph after this style:

"X. Y. Z.—The Chancellor of the Exchequer wishes to acknowledge receipt of \$750 on account of unpaid income tax."

"Or it may be that the advertisement runs in the name of the Commissioners of Inland Revenue, but it is generally the same announcement bar that. The very largest amount the Treasury ever got at one swoop from this source, so I am told, was \$5,000, though that did not come under my own cognizance here. And, I believe, the lowest sum we have ever had was a shilling, which somebody once dropped into the letter-box with the usual explanatory note."

"That defaulter must have had a very tender conscience indeed; far more so than most men who pay income tax. Dodging the payment of this tax is reckoned not only right, but even creditable, by some men; but five postal orders for a pound each which came not long ago to us for conscience-money proves that not every man with a moderate income can stifle the 'still, small voice' when he has succeeded in 'doing the collector.'"

"I suppose," I put in, "that the Treasury does not take any special steps to discover the personalities of any of these conscience-stricken defaulters who thus send their money to its coffers unexpectedly?"

"No," he replied; "we should generally find the task impossible. Besides, we are only too glad to get the money at all! Many folk look upon the Treasury as a veritable gold-mine, a department never really needing money! But I can assure you that this is wrong. Our motto has long been—and I believe it always will be—'The smallest contribution thankfully received.' So we welcome these various gifts of conscience-money whenever they arrive. And the oftener they come and the larger they are the better we like them!"—Tit-Bits.

Watched Comrade Hang.

An astonishing story of callousness was told at Darlington recently where a young man named Bolam calmly confessed that he had sat in the prison cell and watched another prisoner commit suicide. This prisoner, a middle-aged man named Cully, had been arrested on a charge of larceny, and placed in the same cell as the youth. During the night he produced a piece of cord from the lining of his coat. "Who is going first?" he said to Bolam. "Well, I'm not going," replied Bolam. Cully then hanged himself, the youth quietly watching him the while. After the tragedy the latter went to sleep with the dead man hanging beside him. When he was asked by the police why he had not stopped Cully, Bolam said, "I didn't care what he did. I was not going to interfere. It was not my fault."—English Exchange.

Not Anxious For It Himself.

At the storming of a fort, when scaling ladders had been placed, an Irish private, with one foot on the ladder, was about to climb up when a young officer stepped before him, saying:

"Officers first, my lad. Follow me, for this is where Victoria Crosses are earned."

The private followed close behind him, but on reaching the top a round shot carried the officer's head away, and his body fell back.

Pat, grasping the ladder and swinging aside as if to allow those behind him to pass, shouted, "Begorrah, now, is there any more of yez below that's anxious for the Victoria Cross?"—London Globe.

England's Oldest Tree.

A chestnut tree at Torworth, the residence of the Earl of Ducie, near Bristol, is probably the oldest tree in England. It is 1,000 years old at least, and measures 50 feet in circumference until it branches into three limbs, one of them over ten feet in diameter.

COUGHS & COLDS

LEAD TO CONSUMPTION

Colds are the most dangerous of all forms of disease. A neglected cold leads to Bronchitis, Consumption, Pneumonia. "Coughs" are the result of irritated bronchial tubes. "PSYCHINE" cures coughs by removing the irritating particles and healing the inflamed membrane. It is a germicide and destroys the tubercle germ. It is a tonic that strengthens the lungs, the liver, and tones up the system. It makes for better health in all conditions of humanity. Get strong and the cough will disappear. "PSYCHINE" makes weak people strong. It cures coughs of the most obstinate kind and breaks up a cold in a few hours.

PSYCHINE
PRONOUNCED SI-KEEN

SOLICITOR OF THE G.T.R.

M. K. Cowan, K.C., Resigns to Enter General Practice.

M. K. Cowan, K.C., solicitor of the Grand Trunk Railway, has resigned that important position and has joined the big legal firm of Beatty, Blackstock, Fasken & Chadwick, of Toronto, and next week he will move from Montreal to Toronto, where he will take up his permanent residence. In 1904 Mr. Cowan was appointed assistant

MALON K. COWAN, K.C.

solicitor for the big railway corporation and he has been prominently and actively identified with all the big legal adjustments of the corporation since, appearing as G.T.R. counsel in nearly all the important cases the company has had before the Railway Board at Ottawa. Last January he was made head solicitor of the company.

In connection with his retirement, Mr. Cowan states that his relations with the general manager, Mr. Hays, have been of the most cordial character, but he prefers to enter general practice, as the railway legal business tends to place one in a rut and the openings for railway work are limited in Canada. In 1890 he was first called to the Ontario bar, and in 1896 he entered the political arena in South Essex, where he defeated Dr. King for the House of Commons. In 1900 he defeated Louis Wigle, and in 1904 he did not run. During his Parliamentary career he was chairman of the Private Bills Committee.

Too Late.

At luncheon at Buckingham Palace one of the young sons of King George excitedly said to the late King Edward, "Oh, grandpapa," when the King interposed with some severity, "Little boys should be seen and not heard. Go on with your luncheon and don't talk."

The small prince collapsed. Presently King Edward said to him, relenting: "Now you can say what you were going to say."

The little prince with a world of meaning, said: "Too late, grandpapa; it is too late."

King Edward said: "Nonsense! If it was worth saying five minutes ago it is worth saying now."

"No, grandpapa," said the little prince. "There was a big green worm in your salad and you've eaten him."

EXTENSION OF LEASES

BUSINESS MEN ADVOCATE MANY IMPORTANT CHANGES

The Convention of the Associated Boards of Trade of the West Closes Session at Brandon—Question of Supply of Harvest Hands is Discussed—Advocate Regulations for Proper Grading of Wheat.

Brandon.—The convention of the associated boards of trade was brought to a close with a vote of thanks to the citizens and board of trade of Brandon, after Lethbridge had been selected as the place of meeting for next year.

The following resolutions were adopted by the convention:

"That the Dominion government be urged to take immediate steps to meet the situation, and that leases now current be made permanent for the remainder of the term for which they are granted as a remedy. Also that certain leases be issued for a definite term of at least ten years in certain districts of Saskatchewan and Alberta, and include the Peace River district and suitable lands adjacent to the foothills."

On the suggestion of W. E. Knowles, M. P., of Moose Jaw, it was amended so as to recommend that the period of notice given to holders of leases be extended from two years to four years. It was adopted.

"That a recommendation be sent to the Saskatchewan government requesting that they engage a freight expert, whose duty it shall be to study the freight tariffs of the railway companies operating in the province, and endeavor to adjust any differences arising between the mercantile interests and the railway companies in connection with these tariffs."

It was amended to apply to each of the governments of the three provinces and was then carried.

"Whereas, owing to the increased acreage of lands under cultivation in the western provinces this year, and the excellent crop prospects that prevail at the present time, the number of harvest hands required will be greatly in excess of that required in any previous year. And, whereas, the sources from which the supply has been secured heretofore are rapidly diminishing.

"Therefore, be it resolved that the associated boards of trade of Western Canada request the Dominion and the provincial governments of Manitoba, Saskatchewan and Alberta to co-operate with the railway companies through the agents of the latter and with the labor exchanges in the older countries to procure the supply of labor necessary to assist in harvesting the grain crop."

"Further, that the associated boards request the Dominion government and the governments of the three western provinces to each appoint one or more parties, who shall furnish in good time reliable information as to the number of harvest hands required, and to assist in a systematic and equitable distribution."

"And, further, that the government be requested to modify the existing immigration laws so as to allow harvest hands to enter the country without unnecessary monetary restrictions."

"That the necessary legislation and regulations be procured for proper grading of wheat grown in the three western provinces, and giving them a name suitable for wheat grown in any of these provinces."

The object was to secure an expression of opinion as to the advisability of substituting a general name for the term "Manitoba," in order that some recognition might be given to spring wheat grown in the other provinces, or at least the apparent discrimination in favor of Manitoba might be removed.

Superintendent of the National Park

Calgary.—Mr. A. B. McDonald, well known old timer in Southern Alberta has been appointed superintendent of Banff National Park. He succeeds Mr. Howard Douglas, who has been appointed commissioner of parks. Mr. McDonald has already assumed his new position.

Mr. McDonald is very well known in Southern Alberta, having been superintendent of the Glengary ranch for many years. He was a candidate in opposition to John Herron at the last Dominion election.

Union Station for Calgary

Edmonton, Alta.—A. R. Davidson, head of the C. N. R. land department here on a visit states that several new townsites are to be opened this summer on the Vegreville-Calgary branch of the C. N. R. He states that construction of the line into Brazeau coal fields west of the city, will proceed this year and that Athabasca landing line is to be completed. There will be union stations with the G. T. P. at Edmonton and Calgary.

Michigan Farmers for Alberta

Edmonton.—A. W. Kelly, of Detroit, Mich., representing a syndicate of Michigan capitalists which includes States Treasurer Sleeper, a banker of Badaxe, Mich., is here to purchase 1,000 acres of farm land for a group of twenty-five farmers of Michigan who intend to come to northern Alberta next season.

The Pope Offends Germany

Berlin.—The German government has instructed its Rome representative to make representations to the Vatican in regard to the Boromeo encyclical, which has given so much offence to Germany.

WILL BUILD MANY ELEVATORS

Alberta Company is Now Busy at Nine Elevators Throughout the Province

Calgary.—A most suggestive building campaign is now being inaugurated by the Alberta Pacific Elevator company of Calgary. They aim to have, when the following season commences, a line capacity of 500,000 bushels.

This company, according to Mr. A. A. Smith, their elevator superintendent, is the first to commence building elevators in the west this year, and they have now in the process of erection, elevators at Winnipeg, Bow Island, Seven Persons, Barnwell, Purple Springs, Olive, Tees, Halkirk, Castor, all of which are Southern and Central Alberta towns.

Material and sites have been secured for elevators at Loughheed, Hardisty, Provost, Brandt, Acme, Cluny and Bassano and provisions for handling grain will also be provided at Crowfoot, Brooks, Carlstadt and Irricana. The capacity of their Calgary elevator will, this year, be increased as it has been necessary during the past few months to ship grain uncleaned to destination, as the local plant was not in a position to accept all of the work that was being offered.

Hudson Bay Road

Ottawa, Ont.—Probabilities are that the directors of the Hudson Bay and Pacific railway who were prevented from holding an organization meeting here on May 16 will be able to get together.

Injunction secured by Ralph Jones of minority shareholders expires on Saturday. Mr. Jones who has established his right to be notified of the intention to hold a meeting, has given notice that he will not take any further proceedings.

English promoters of the company are at present in Toronto and New York but are expected in Ottawa in a few days when formal steps will be taken to call a meeting. It is said that efforts are being made to interest New York capital in the enterprise.

Build at Once to Athabasca Landing

Edmonton.—A. R. Davidson, head of the C. N. R. land department, was here recently on his way to the coast to take over the Dunsuir collieries on behalf of the railway company. He states that new townsites on the Vegreville-Calgary line are to be opened this summer.

The company is preparing to purchase a large block of Alberta farmland; the construction of a line west to the Brazeau coal fields is to be proceeded with at once as also the completion of the Athabasca Landing line. Representatives of the American wireless corporation are here looking for a site for a wireless telephone tower. They say they will be able to talk from Edmonton to Calgary before snow flies.

The King Appoints the Old Officials

London.—A complete list of the appointments to King George's household, gazetted recently, shows that his Majesty has retained a very large number of the members of King Edward's household. Lieut. Col. Sir Wm. H. P. Carrington, who was controller of the Prince of Wales' household, however, replaces Gen. Sir Dighton Probyn as keeper of the privy purse. Lord Francis Knollys is retained as joint private secretary with Lieut. Col. Sir Arthur John Bigge, the King's secretary. Lord Analls, who was lord of the bed chamber, and many other persons who served King George when he was Prince of Wales have been added to the new royal household.

Edmonton to Get High-Level Bridge

Edmonton, Alta.—Satisfactory assurance that the province would come through with the grant of \$175,000 towards the C. P. R. high-level bridge in conjunction with the grant from Edmonton and Strathcona, and the Dominion government, for a traffic bridge, was given recently by Premier Sifton to F. W. Peters, assistant to the C. P. R.'s second vice-president, who reached the city from the east. Afterwards Peters said preparations were being made to proceed at once with the big structure. Tenders would be called for the sub-structure. The bridge will be completed in a year and a half, together with the big depot in Edmonton and other terminal buildings.

Tuberculosis Convention

Montreal.—Dr. J. G. Adams, professor of pathology at McGill University, was unanimously re-elected president of the Canadian Association for Prevention of Tuberculosis at the closing session recently. Dr. Adams was also appointed official representative at the international congress of societies formed for the extermination of the white plague at Rome next spring. It was decided to ask the Dominion government to enter the anti-tuberculosis congress in Rome.

Dr. Fagan, of Victoria, B. C., asked that the association see that representatives are looked after in Rome.

London, Ont., will be the next place of meeting of the association.

Alberta College for Presbyterians

Halifax.—The question of establishment of a theological college in Edmonton was introduced in the assembly by an overture from the synod of Alberta. The proposal is to erect a residence and hall in conjunction with the provincial university and to begin the work of teaching in the hall the present year. The question was referred to a large committee of which all the representatives from Alberta are members.

PLANS FOR A. G. & W. R.

CONSTRUCTION TO BE HANDLED BY BIG FIRM

It is Rumored That a New Agreement is to be Made Which Will Mean the Immediate Construction of the Road Under More Satisfactory Conditions—Asserted that Government Favors Agreement.

Edmonton.—It is reported that some rather sensational developments which will mean a complete change of plans of the Railway Company, developments which will mean the immediate construction of the railway under which it was at first commenced, are expected to occur as the result of the return to the city of E. A. James, general manager of the railway company, who held a conference with the president, W. R. Clarke, in Winnipeg. Mr. Clarke is at present living in Minneapolis.

From what is considered to be very authoritative sources, it is learned that arrangements have been completed to have the big contracting firm of Foley, Welsh and Stewart take over the construction of the Alberta and Great Waterways railway under the present contract with the government. It is reported that this contracting firm, who are known to be one of the most reliable and the most wealthy of contracting firms in Canada, is prepared to commence construction on the road immediately the necessary arrangements have been completed and the new arrangement has received the approval of the new administration of the province. And in this connection it is reported that little difficulty is looked for.

Under the arrangement it is understood that a new survey of the railway will be made and that survey parties will be placed in the field immediately and the provincial government have approved of the new conditions. This new route will be as forecasted, some twenty-five miles to the east of the present route. When the surveys are completed Foley, Welsh and Stewart will take over the construction and carry it through, making an effort to have 50 or 75 miles of grade completed this year.

Educating Easterners in Western Ways

Calgary.—In a manner which would have caused the envy of the late Frederick Remington, the Canadian Pacific Railway will portray the lure of Canada's west on a moving picture screen. Arrangement have been completed for taking the films, portraying a fascinating series of pictures which will educate easterners as to the mysteries of broncho busting, the possibilities of farming and ranching and of the home-making on the prairie where men can own their homes and need not pay rent, as do the majority living in the cities and towns of the east. A special train will be placed at the disposal of the Edison company of New York, who, acting under the direction of Mr. J. S. Dennis, assistant to the Second Vice President of the Canadian Pacific are arranging to secure these pictures. A special party of twelve actors will accompany the train and the settings for the various pictures will be found at points such as Winnipeg, Calgary, the mountain section of the Canadian Pacific railway, the fruit lands of Southern British Columbia and the logging camps of Central British Columbia. This task, which will have such great publicity value for Western Canada in general and Calgary in particular will be commenced about the end of this month.

Changes in Hudson Bay Company

London.—The Hudson's Bay company affairs are moving quietly toward readjustment, which will be in the nature of an upheaval at the next month's meeting. Lord Litchfield and Alderman Vaughan Morgan are to retire from the directorate by rotation. Neither will offer himself for re-election. No final decision has yet been made as to the new directorate, but probability points to, namely: Wm. McKenzie, Richard Burbridge, managing director of Harrod's stores; Vivian Smith, of J. P. Morgan's; and Mr. Kitterly, of Frees.

It is anticipated the board will split up business into three sections, namely, land, trade and fur. Especial development are anticipated in trading on lines demanded by the new conditions of the west. Upon question of who will take Lord Litchfield's place as deputy governor, no authoritative information is yet available. No serious suggestion is made by Lord Strathcona himself, or others, that he will cease to be governor, though the new members of the board are certain to exercise greatly their influence.

Public Worship by Non-Catholics

Madrid.—The government announces an impending decree abolishing the article of the constitution which forbids non-Catholics worshipping publicly in Spain. This prodigious step in religious toleration has caused a sensation and is likely to excite considerable opposition. It is due to Premier Canalejas and other Liberal statesmen, who found King Alfonso sympathetic with the proposal.

Canadian Navy

Ottawa.—It was announced recently at the marine department that tenders for ships of the Canadian navy will be called for in September. The admiralty is sending out plans and forms of specifications upon which tenders will be based and there is a great deal of correspondence on the subject in progress.

NEW DISTRIBUTION OF DIVISIONS

Entire Reorganization of the C. P. R. Western Lines is Now Under Way

Winnipeg.—An entire reorganization of the western line of the C. P. R. is now under way. The great increase in mileage of this portion of the system during the past ten years has made frequent changes necessary, and this one is the most radical of all. At the present time the western lines are operated at three grand divisions, and the plan now in hand is to reorganize them as four grand divisions.

The total mileage of the C. P. R. is 9,800 miles, and of this 6,200 are included in the western lines operated from Winnipeg.

In the operating the Central Division is extended from Fort William to Broadview, the Western from Broadview to Laggan, and the Mountain from Laggan to the coast.

The new distribution will be practically according to the provinces, and the names of these grand divisions will probably be the Manitoba, Saskatchewan, Alberta and British Columbia Divisions.

Moose Jaw will be the new divisional headquarters, as it has excellent facilities in the way of shops and yards, and is centrally located.

William Whyte, second vice-president, stated recently that final arrangements had not yet been made as to the personnel of the staffs of the reorganized divisions.

That matter was in the hands of G. J. Bury, general manager, who is at present in the west.

Mr. Bury's recommendations would probably not be made till his return, in the course of the next few weeks.

The change will go into effect on July 1.

Is Appendicitis Contagious?

London.—Dr. Donald Hood, writing to the Lancet, propounds the theory that appendicitis is contagious. He says:

"If the disease is due, as I believe, to the effect of microbic influence the micro-organism may under certain conditions be conveyed from individual to individual."

Dr. Hood dwells on the great number of cases and points out that within recent years the type of the disease has changed, being now much more virulent than formerly.

General Botha is Criticized

Johannesburg.—Gen. Louis Botha's determination to fight Sir James Fitzpatrick in Pretoria at the forthcoming general election is the topic of conversation, and the feeling has undergone a strange revolution. English papers which were decidedly pro-Botha a fortnight ago, denounce the contest as a perversion of racial animosity. The feeling in Natal is that a movement to form a party will probably be dropped. Natal will follow the lead of Dr. Leander S. Jamieson.

Chinese Must Study English

Pekin.—The throne, approving the recommendations of the board of education, decrees that English shall be the official language for scientific and technical education and makes its study compulsory in the provincial, scientific and technical high schools. It provides final Peking examinations for degrees in these branches through the medium of English.

Canada's Warship Will Sail in August

Ottawa.—The Niobe, one of the two warships, purchased by the Canadian government, will sail for Canada about the middle of August. The Rainbow will be ready for inspection on July 11 and will sail for the Pacific coast shortly afterwards. The naval cadets on the Canada will be transferred to the Niobe.

Roosevelt is Homeward Bound

Southampton.—Theodore Roosevelt is homeward bound. Accompanied by Mrs. Roosevelt, Kermit, Ethel and Mrs. Nicholas Longworth, he sailed on the Hamburg-American Line steamer, Kaiserin Augusta Victoria. The steamer is due at quarantine on the night of June 17, but the former president will not land in New York until the following morning.

Farm Hands Very Scarce

Winnipeg, Man.—That the supply of farm hands is totally inadequate to meet the demand is the firm conviction of J. Bruce Walker, the chief immigration agent. Mr. Walker states that he could place five thousand farm hands, and he fears when harvesting time arrives there will be a scarcity of men, which may cause grief to some farmers.

Canada Most Sober of All Countries

Glasgow.—At the World's Women Temperance Union convention it was reported that the membership in Canada was 12,000, and for a country where license laws prevailed there was less drink consumed in Canada than in any country in the world.

Australia as Empire's Granary

London.—Australia last month displaced Canada as granary of the empire, sending 25 per cent. more wheat to Great Britain and 50 per cent. more than the United States in flour shipments to Britain.

Wheat Area of Canada

Ottawa.—According to a bulletin issued by the census department recently, the area of wheat in Canada this year is 9,295,000 acres, or an increase of 1,500,400 over last year, and at the end of May its condition was 91.49 for spring wheat and 87.65 for fall wheat.

INCREASE IN ACREAGE

FAVORABLE REPORT ON WESTERN CROP PROSPECTS

Dr. William Saunders, Director of Experimental Farms, Gives Observations on His Trip of Inspection Through Wheat Country—Experiments for Improving Grade of Wheat is Being Conducted.

Winnipeg.—Dr. William Saunders, the director of the experimental farms of the Dominion, returned to Winnipeg recently from an extended tour of the whole of the wheat country between this city and the Rockies. The present indications are, said he, that the crop will be a good one. There has been some damage in certain districts, but nothing very serious, and there is an immense increase in the acreage under grain.

Dr. Saunders had not the figures for Saskatchewan and Manitoba, but Alberta shows an increase of twenty-six per cent, and from what he had seen, Dr. Saunders estimated that the amount of new ground brought under tillage was proportionately large.

Dr. Saunders thought that the barley and oats had suffered more than the wheat. In Northern Saskatchewan the plants of these grains have been discolored and withered, but Dr. Saunders thought they could recover with favorable conditions.

In Southern Alberta the winter wheat has been damaged by frost and the dry winds which have blown the sands with cutting force among the young plants.

Asked whether he discerned any improvement in the farming methods of the men of the west, the doctor said that there was a general step forward noticeable each year.

The Canadians and Americans are taking full advantage of the splendid farming conditions of the west, and Dr. Saunders was glad to see a large number of men who hailed from the British Isles making a great success of their farms.

The experimental farms at Brandon, Indian Head, Rosthern, Scott, Lacombe, and Lethbridge were visited. Important experiments with a view to developing better grades of wheat are being carried on at all these agricultural stations. Many hundreds of varieties of wheat from all parts of the world are being tried. The cereal department at Ottawa has evolved a number of Canadian wheats, from which important results are expected.

Asked whether he agreed with the authorities who have recently recommended the more general adoption of mixed farming in Western Canada, Dr. Saunders said that mixed farming was certainly more profitable where it was possible. In some localities the conditions were not appropriate.

Dr. Saunders has been in charge of the experimental farms of Canada for twenty-five years and has now control of a dozen stations which stretch from Charlottetown, Prince Edward Island, to Agassiz, British Columbia.

Alberta to Have Separate College

Halifax, N.S.—The province of Alberta, in which the churches and missions of the Presbyterian body have increased so rapidly during the past five years, is to have a theological college of its own and will in future educate its own ministers. This was the decision at which the general assembly arrived recently after a spirited session. The assembly named the first board of management and the first senate of the new institution. The building will be erected in connection with the provincial university in Strathcona. The list of the members of the governing body includes those of the most prominent ministers in the province and about thirty well-known laymen. Among the latter are Hon. Frank Oliver, Hon. C. W. Cross, Mr. Justice Steward, of Calgary; James Short, barrister, Calgary; John A. McDougall, Edmonton, and J. M. Douglas, M.P., Strathcona.

Dr. D. G. McQueen, of Edmonton, is named as chairman of the board of management and he is directed to call the board and senate together in joint meeting and elect a principal. It is planned that the work of instruction should begin in the present year. Temporary classrooms will be provided in the university.

B. C. Lumber Advertising in Britain

London.—British Columbia interests are making elaborate efforts in the press. The Times publishes a whole page of illustrated matter, advertising generally the lumber wealth of the province at a cost of \$900. The Daily Mail and Observer had similar pages the other day costing \$1,500 and \$750 respectively. To further the campaign in progress, through the agency of Harmsworth's journal, in addition to a special advertisement, an expert is being sent to British Columbia at the promoters' expense. The congested condition of the market for semi-speculative Canadian speculation still continues.

British Students Will Tour Canada

London.—The main touring party of university men who are about to proceed to Canada and the United States, under the auspices of the Student's Travelling bureau, leave Liverpool on June 21.

Serves Writ on Peary

London.—It is reported here that a representative of Dr. Cook served a writ on Peary when here for \$2,000 for supplies appropriated by Peary during his Arctic voyage.

Wedding Bells

A very pretty wedding was celebrated at the home of the bride in Calgary on Tuesday June 8th. The contracting parties were Miss Pricilla Matheson and Mr F. N. Lawrence who were supported during the ceremony by Miss Agnes Boyd, and Mr I. W. Lawrence of Curlew. To sweet strains of the wedding march the bride entered the room on her father's arm daintily attired in a pure white costume, and carrying a beautiful bouquet of flowers; followed by the bridesmaid who was charmingly dressed in a pale blue princess gown. After the short impressive ceremony congratulations were offered the happy couple as they sat down to the wedding dinner served by two friends of the bride charmingly attired in white. The sumptuous repast was finished by a toast from the pastor to the brides health and happiness and heartily responded to by all. After a pleasant drive around the city Mr and Mrs Lawrence took the train for the east where they will spend their honeymoon. The only out of town guest present were Mrs R. M. Holdsworth of Winborne sister to the bridegroom and Mr. I. W. Lawrence of Curlew. Mr I. W. Lawrence is an early pioneer of the far north having spent twenty-five years in the Peace River country. He is well known in Edmonton and is the second son of the late E. J. Lawrence whose name is well known to all old timers in the west.

Hammering Again

The following extract was taken from last week's Province, and as to the truth of the statement, we question greatly. Evidently the writer has never taken the trouble to find out the truth of his statement or else he has tried to maliciously slander our station grounds. For his benefit and those who are ignorant of the true state of conditions here we publish the extract and a little additional information that he might take to heart before making further statements. The following is the extract—After reviewing the work in connection with the beautifying of the Station Ground, at the towns on either side of us, it makes us feel some what ashamed of our selves to see the lack of any attempt to do so at Bowden. Now the writer of that item must have been effected with myopia, or he could not fail to observe that one of the neatest and best kept gardens in Bowden is right on the station grounds where much thoughtful care is bestowed on it, not only by our station master, F. Keene, but by his wife also, who is deeply interested in floriculture. But possibly we misjudge the writer, he may be of a philanthropic turn of mind, and this if just his charming little way of conveying a gentle hint to the residents of Bowden that he would like to be permitted to spend, say fifty dollars or so, in the further beautifying of the station grounds, and if this be the case, we are quite sure that our obliging Station Master will give him a free hand.

Experimenting Cost \$100 \$1.00 Paid for the Cure

Rheumatism Disappeared When the Poisons Were Removed from the System by DR. CHASE'S KIDNEY-LIVER PILLS

Experiments are sometimes necessary and almost always expensive. It is usually wise to let others do the experimenting and profit by their experience.

When it is a matter of regulating the liver, kidneys and bowels and driving out of the system the poisons which cause rheumatism, backache, lumbago and other pains and aches, experience has proven that Dr. Chase's Kidney and Liver Pills are the most effective treatment available. They are different from ordinary kidney medicine in that they regulate the liver and bowels, as well as the kidneys, and in that way get at the very source of trouble.

Let others experiment if they will. This letter shows what experimenting cost one man, and many have had somewhat similar experiences.

Mr. James Clarke, Maidstone, Sask.,

writes: "I have great pleasure in testifying to the good results I have obtained by using Dr. Chase's Kidney and Liver Pills. For four years I suffered from Rheumatism in my shoulders and back and could not lift my arms above my head. I tried nearly all the advertised remedies. Lots of them were to be sure cures, but none of them gave me relief."

"I was then persuaded to use Dr. Chase's Kidney and Liver Pills and soon found relief. By following up this treatment a thorough cure was brought about and for six months I have been free from rheumatism. It cost me at least one hundred dollars in experimenting before using Dr. Chase's Kidney and Liver Pills, which cured me at the cost of 25 cents a box."

You can be sure of definite, beneficial results when you use Dr. Chase's Kidney and Liver Pills. One pill a dose. 25 cents a box. All dealers, or Edmanston, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

If Too Presumptuous

Head Waiter (dignified and pompous)—"Have you ordered, sir?" Despairing Patron—"Yes, I ordered a porterhouse steak half an hour ago and I wish to apologize for my rudeness. With your permission I will withdraw it as an order and renew it as a suggestion."

Mothers can easily know when their children are troubled with worms, and they lose no time in applying the best of remedies—Mother Graves' Worm Exterminator.

"I have always heard," remarked a visiting Englishwoman, "that tipping was not as common in America as with us; but when I find Americans tipping their own maids to button up their backs, I have my doubts."—New York Sun.

Minard's Liniment lumberman's friend

Of all places of importance Sydney, New South Wales, is farthest from London as the crow flies—10,120 miles.

It Has Many Qualities.—The man who possesses a bottle of Dr. Thomas' Electric Oil is armed against many ills. It will cure a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, cure the most persistent sores and will speedily heal cuts and contusions. It is a medicine chest in itself, and can be got for a quarter of a dollar.

The density of population in the German empire is 303 to the square mile. What that means may be grasped by considering that if the United States were as thickly populated as Germany, it would have 900,000,000 people—ten times the present population.

Keep Minard's Liniment in the house.

Some doctors say that eating beef regularly is bad for the temper.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Cure is within reach of all.

Last year twenty-two people were killed by motor cars in the streets of London.

Injured Innocence

"I want to assume a convincing expression of injured innocence," said the Pittsburg man charged with graft.

"I'd advise you to go to all the baseball games."

"But I'm in no mood for diversion."

"Of course not. But what you want to do is to study the expression of a base runner when the umpire calls him out."—Washington Star.

If every housekeeper would use Wilson's Fly Pads freely during the coming summer, the house fly would soon cease to exist, or be greatly diminished.

"Don't worry, you'll get your money, but I can't pay you this month."

"That's what you told me last month."

"Well, haven't I kept my word?"—Judge.

One night Smith looked out of his window and discovered a man stealing his wood.

"Hello, there!" cried Smith; "carrying off my wood, are you?"

"Yes," replied the thief, "and I suppose you'd see me break my back before you'd help me."

MINARD'S LINIMENT is the only Liniment asked for at my store and the only one we keep for sale.

All the people use it.
HARLIN FULTON.
Pleasant Bay, C. B.

"Beg pardon," said the hotel clerk, "but what is your name?"

"Name!" echoed the indignant guest, who had just registered.

"Don't you see by signature there on the register?"

"I do," answered the clerk, calmly. "That is what aroused my curiosity."

Positive

Mistress—Nora, I saw a policeman in the park today kiss a baby. I hope you will remember my objection to such things.

"Sure, ma'am, no policeman would ever think of kissin' yer baby when I'm around."

But, Oh, Ye Servants!

Lady Boss—Jane, what is the time? Jane—It was ten minutes after 9 about five minutes ago. It'll soon be half past, mum.

Frigid

"She got cold comfort from him, I hear."

"Yes; he told me she ate seven plates of ice cream."

Out of Sight

English Visitor—You Americans don't appreciate our scenery.

American—Oh, I don't know. Our billboard men fence it in as soon as it is discovered.

Dignifiedly Ambiguous

Walking Pete—I ast de loidy for cold wittles.

Frowny Ike—Bet she give ye de cold shoulder.

WHY BACKS ACHE

The Kidneys Seldom to Blame
—The Trouble Due to
Blood Impurities

There is more nonsense talked about backache than any other disease. Some people have been frightened into the belief that every backache means deadly kidney trouble. That is utter rubbish. As a matter of scientific fact not one backache in twenty has anything to do with the kidneys. Most backaches come from sheer weakness and kidney drugs can't possibly cure that. You need something to brace you up and give you new strength and that is exactly what Dr. Williams' Pink Pills will do. Other backaches are really muscular rheumatism, and Dr. Williams' Pink Pills have cured the worst cases of rheumatism by driving the poisonous acid out of the blood. Other backaches are the symptoms of ordinary ailments such as influenza, indigestion, constipation and liver complaint. In women backaches often come from the troubles that follow so surely on any weakness or irregularity in the usual blood supply. The one way to cure these backaches is to strike at the root of the trouble with Dr. Williams' Pink Pills, which enrich the blood and bring strength to aching backs and weak nerves. Mr. Alex. Cockburn, Deloraine, Man., says: "About three years ago I suffered terribly from backache. I consulted a doctor and took his medicine, and wore a plaster, but did not get the least relief. Then I got a belt, but this was as useless as the other treatment, and my suffering still continued. Then one of my friends asked me why I did not try Dr. Williams' Pink Pills, and I got a box. Before they were all used there was some improvement in my condition and I got three boxes more. By the time I had taken these all the signs of the pain had gone, and as it has not since returned I feel that the cure is permanent. My only regret is that I did not hear of Dr. Williams' Pink Pills sooner, for not only would I have got rid of the pain sooner, but would also have saved some twenty-five dollars uselessly spent in other treatments."

Dr. Williams' Pink Pills are sold by all dealers in medicine or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Green—"Do you believe that being born under a certain planet has any effect on a man's life?"

Brown—"Not as long as he is able to stay on earth."

KEEP BABY'S SKIN CLEAR

Few parents realize how many estimable lives have been embittered and social and business success prevented by serious skin affections which so often result from the neglect of minor eruptions in infancy and childhood. With but a little care and the use of proper emollients, baby's skin and hair may be preserved, purified and beautified, minor eruptions prevented from becoming chronic and torturing, disfiguring rashes, itches, irritations and chafings dispelled.

To this end nothing is so pure, so sweet, so speedily effective as the use of Cuticura Soap, assisted, when necessary, by Cuticura Ointment. Send to Potter Drug & Chem. Corp., Boston, U.S.A., sole proprietors, for their free 32-page Cuticura Book, telling all about the care and treatment of the skin.

About Time

"Greenstone, the young lawyer, tells me he has pulled off a suit."

"Winter flannels, I reckon."

"Why did you leave the council meeting before McCulloch made his speech?"

"I thought I'd rather read it in the papers after the reporters had put it into shape."

Unless very carefully handled the newspaper files of today will last scarcely twenty years because of the quality of the wood paper that is used.

A woman is never sure she is happily married until she discovers that she isn't.

THE SUNDAY SCHOOL

LESSON XII.—SECOND QUARTER,
FOR JUNE 19, 1910

Text of the Lesson, Matt. xlii, 1-8, 18-23—Memory Verse, 23—Golden Text, Jas. i, 21—Commentary Prepared by Rev. D. M. Stearns.

We step back quite a bit in the order of events to take up this and the next two lessons on the "Mysteries of the Kingdom," but perhaps it does not matter much how we step if only we step into the light and keep step with our blessed Lord in His thoughts and purposes. Although verses 10 to 17 are not included in our lesson we must look at them, as there we find the reason why He taught in parables. The rulers having determined to kill Him (xlii, 14) our lesson chapter opens with the statement that the same day He went out of the house and sat by the seaside. A simple statement of a fact, but very suggestive of another fact—that He was about to go out from the house of Israel and begin to gather from the sea of nations another people during this age who will reign with Him in the next or Kingdom age (Matt. xxiii, 37-39; Acts xv, 14-18).

When the disciples asked Him why He taught in parables, His reply was, "Because it is given unto you to know the mysteries of the kingdom of heaven, but to them it is not given." And then he quoted from Isa. vi the prophecy concerning this blindness. The kingdom of God, or of heaven, was no mystery, for it was plainly revealed in all the Old Testament. The sufferings and the glory, that the kingdom would be at hand and then postponed for a whole age, this was not revealed until by the Lord in these parables, and later to and by Paul. A concordance will enable any one to see that the word "mystery" is used of God in Christ, Christ in His people, the blindness of Israel, the resurrection of the just, the development of iniquity, the end of this age. This whole age between the rejection of Christ and His coming again in glory is the time of the mysteries of the kingdom which our Lord sets forth in these seven parables of this chapter. Mark and Luke each give the first one—the parable of the sower—the understanding of which seems all important, for our Lord said when asked for its significance, "Know ye not this parable? And how, then, will ye know all parables?" (Mark iv.)

From our next lesson we learn that the field is the world (verse 38), and we must bear in mind that it is a world lying in the wicked one and that he is the God of it. It is an evil age and ever growing worse as far as the fear of God is concerned (I John v, 19; II Cor. iv, 4; Gal. i, 4; Rom. xii, 1, 2; II Tim. iii, 1-5). Alongside of unparalleled progress on many lines there is unparalleled iniquity, unbelief, rejection of the Bible as the word of God and of the deity of Christ and of His atonement for sin. We are nowhere taught to expect any improvement in these matters during this age, but we are faithfully to sow the seed of the word of God everywhere and expect just what we are taught in this parable. Some set their hearts on certain results and say we must have this or that, we must have fifty or a hundred conversions, we must have a revival, the town must be taken for God, etc. Happier are those who are in harmony with the Lord and who rest on His assurance that His word will accomplish that which He pleases (Isa. lv, 11). It is incorruptible seed, the word of life, and He has promised to watch over it (I Pet. i, 23; Acts v, 20; Jer. i, 12, R. V.). The hearts of men are the soil, and some are beaten so hard by the going to and fro of the things of this life that the seed can scarce find entrance, and the devil is always watching to catch it away lest they should believe and be saved. Other hearts are hard within, rocky hearts, but with enough soft soil to receive the seed. Such appear to enjoy the word; they say it does them good they receive it gladly, but they are easily offended, cannot stand any persecution.

In others the soil is good enough to grow thorns and the seed does find a lodging, and it grows, but the thorns grow so fast that there is no fruit. The cares and pleasures of this life, the deceitfulness of riches, the lusts of other things, choke the word, and no fruit is brought to perfection. In the first two kinds of soil there is no indication of salvation. I am inclined to believe that this third kind of soil indicates a possibility of salvation, but saved as by fire (I Cor. iii, 14, 15). The fourth kind of soil is good by the grace of God. There is an honest reception of the truth. They hear it and understand it and keep it and bring forth fruit with patience, even to thirty, sixty or a hundred fold. All through this age this is what we are to expect and only this. It is ours to sow the seed, the pure seed of the word of God, everywhere and at all time, with confidence in Him that He will accomplish His pleasure by it always. Blessed is that servant whom His Lord when He cometh shall find so doing. Who can estimate the honor of being a laborer with God? Who would not say, "Here am I, send me!" But we must be sure that we preach only the preaching which He bids us that we carry only His message.

Connaught Will Be Governor-General London.—In accordance with the wish of the late King Edward, the Duke of Connaught will succeed Earl Grey as the Governor-General of Canada, probably next spring. The duke is first to make a visit to South Africa for the purpose of opening the new parliament.

Brave Girl

Johnnyboy—I shall always be at hand to shield you in the struggle of life.

"No," she replied, "I must insist on doing my shopping alone."

American and Canadian scientists tell us the common house fly is the cause of more disease and death than any other agency. Wilson's Fly Pads kill all the flies and the disease germs, too.

"Why is it, I wonder, that Wilson has stopped bragging about his ancestors?"

"I suppose he has found out who they were"

DR. MORSE'S INDIAN ROOT PILLS

are not a new and untried remedy—our grandfathers used them. Half a century ago, before Confederation, they were on sale in nearly every drug or general store in the Canada of that day, and were the recognized cure in thousands of homes for Constipation, Indigestion, Biliousness, Rheumatism and Kidney and Liver Troubles. Today they are just as effective, just as reliable as ever, and nothing better has yet been devised to
